

AmeriHealth Caritas[™]
District of Columbia

To: AmeriHealth Caritas DC Home Health Providers
Date: May 12, 2026
Subject: Changes to T1019 Authorizations Effective July 1, 2026

Dear Provider:

Effective July 1, 2026, AmeriHealth Caritas District of Columbia (DC) authorizations for Personal Care services submitted using HCPCS code T1019 will include the NP modifier, resulting in the authorized service code T1019NP.

This change impacts authorization submissions and Electronic Visit Verification (EVV) scheduling for Personal Care services. Home Health Care Agencies using Sandata or an alternative EVV system should ensure their systems are updated before July 1, 2026.

Sandata updated its system on April 29, 2026, to accept T1019NP through file transmission. Providers using an alternative EVV vendor should contact their vendor to confirm readiness for implementation. Failure to update systems accordingly may result in unsuccessful EVV transmissions or scheduling issues.

To support providers during this transition, AmeriHealth Caritas DC will host informational webinar sessions.

Webinar sessions will cover:

- How to properly submit authorizations through NaviNet to AmeriHealth Caritas DC
- Scheduling future visits in Sandata using T1019NP
- Information and technical specifications for alternative EVV vendors that communicate electronically with Sandata

Please register for one of the following sessions:
